

Audits/Assessments

ERI Solutions, Inc. (“ERI”) provides third party assessments of your environmental, health and safety programs using developed audit checklists and tools that includes a systematized methodology by which facilities are measured and compared. ERI’s EHS professionals have decades of direct involvement in OHSAS, ISO, VPP and similar management systems that allow us to provide a very thorough assessment along with recommendations for corrective action.

AREAS OF SERVICE INCLUDE:

- EH&S Management System Assessment
- Environmental Regulatory Compliance Assessment
- Food Safety Modernization Act (FSMA) Compliance Assessment
- Health & Safety Assessment
- Layers of Protection Analysis (LOPA)
- Mock DOT Assessment
- NFPA 70E (Electrical Safe Work) Assessment
- Process Safety Management (PSM) / Risk Management Plan (RMP) Compliance Audit
- Process Hazard Analysis (PHA)
- Site Security Assessment

Following any assessment or audit, a written report is provided to the customer upon completion of each assessment that references the necessary regulation for any regulatory findings and the Best Management Practice (BMP) reference for any BMP suggestions noted.
